ANNUAL REPORT ON QUEEN'S COLLEGE.

Headmaster's Report.

(Continued from Page 5.) 1,-The total number on the Roll, 1416 was '95 less than the previous year, while the average daily attendance was 1015, or 15 in excess. These comparative figures establish the following facts, that Queen's College was as full in 1905 as in 1904, but that there was a further improvement in regularity of attendance, and that fewer boys left in the course of the year, which is further supported by the fact that only 373

new boys were admitted as against 453. 2.-The Estimates provided \$68,694 for 1905, of this only \$80,535 were spent. The amount of School Fees was \$31,387 covering nearly 52 per cent of the total Expenditure. There was an increase irr Fees of \$2,339, of which \$1,660 are directly due to the extra half-dollar a month charged to each scholar in the Upper School. The balance 6679 is assignable to the improved attendance mentioned above.

3.—Changes on Staff. Mr Raiphs returned from Leave Mr Grant went on Leave 10 Nov.

Service 31 May To fill the three vacancies thus caused necessary promotions were made and three

new Pupil Teachers were articled. A 4.—The results of the Oxford Examinations in 1905 as regards Queen's College show considerable improvement, 27 Good marks being obtained as against 18 in 1904. Six Senior, 4 Junior and 12 Preliminary-34 Candidates in all -obtained certificates. The following percentages in subjects may be of interest, Arithmetic, 80; Shakespeare, 80; Freehand Drawing, 79; Algebra, 78; History, 70; Georgraphy, 54; Composition, 50; Book-keeping, 44; Grammar, 44

Geometry, 29, 5. The results of the Annual Examination, held by me under Standing Orders 1376 from the Governing Body, are as follows. Upper School 247 hoys examined 213 or 90% passed!
Lower 539 ... 476 ... 832 ...

College 1010 ... 6. It gives me pleasure to find myself able to report a considerable improvement in the following important English subjects. Composition, Geography, History, Dictation, Reading, Conversation and Transla-tions from and into Chinese. The composition exercises, especially in all sections of Class IV are the best If ever remember correcting. Map drawing seems to have been neglected in all sections of Classes II and III, but Geography throughout the College was excellently taught, and the few searching questions outside the textbooks were well answered. Mathematics with the exception of Algebra continue HOURS OF BUSINESS: 8 A.M. TO 6 P.M. po r. As there are several new subjects 1174 requiring more detailed report, I cannot deal further with the usual subjects of instruction, beyond referring to a very-interesting report made by the Second Master, Mr A. J. May, after correcting the Translation papers from English in Chinese. EGYPTIAN OIGARETTES. He considers the unseen piece well attempt-

> lost the teeth grow" i.e., It will be our turn next. 7.—In congratulating the masters on a successful issue, I should be failing in my duty, it I did not draw attention to the excellent manner in which the masters of III. C. IV. C. V. C. and VI. C have work ed up backward boys so that their results compare favourably with those of the A sections of the same classes. Of 72 boys in Classes II. B and O last March only 25, and these naturally not the best, remained to be examined in IL B: The master of this section has wrought wonders with very indifferent material. What he can do with apt pupils is exemplified in II. A where he took Mensuration and both translations. 8.—Preparatory School: Of the five Pupil Teachers examined twelve months ato, two are now Ex. P. T.'s and the other

B. Tanner, in epite of raw material in his staff, has maintained the excellent reputation of the Preparatory School. Geography was examined as a separate subject in class VII. with great success.

9.—Vernacular School. Though there is as yet no perceptible improvement in the attainments of Chinese here in their contractions. attainments of Chinese boys in their own language on admission to this bollege, the larger proportion of boys examined in the top standard, class V, 109 instead of 57, is evidence of good steady work done DHRST FLOOR, No. 8, QUEEN'S by the five masters. three have left. The Normal Master Mr.

the Secretary of State urged on the Crown Colonies the importance teaching this subject. The Governor of Hongkong at once made Hygiene a compulsory part of the school curriculum, and to stimulate tho necessary interest until the novelty of the subject should have worn off, His Excellency provided several prizes, which for value compare rather with scholarships. I am pleased to report that Hung Iu chi, a genuine Queen's College product was bracketed third in the Schools' competition in the Advanced Course, while by the success of our team of ten boys in the Eleme tary Course, the name of Queen's College will head the list inscribed on the Shie'd. Robert Eastlack, of III. A; and Ijr U-pik, of IV. B. were selected by the Ex aminers for prizes as having obtained the highest marks in their respective classes. Juthe spring of the year there were in Queon's Co lege over 700 boys receiving instruction in Hygiene, but this number dwindled. through boys' leaving school, until there remained for the Angual Examination 606, of whom 386, or 64 per cent, passed. The result is better exhibited in tabulated

work can produce and satisfactors assume

-we are justified in supposing that in another three years after a progressive course of education in this subject in the Third and Second Classes, the boys in the First Class may really acquire advanced knowledge in

Hygiene. 11. Trigonometry. A special class of 27 boys was taught by myself two afternoons a week. We stopped short of Solution of Triangles, having only been able to reach Properties of Triangles. The boys seemed to find the subject interesting, but the dezen that remained for the Annual Examination disappointed me, as their work was inferior to that shown at Mid-Term examinations. Chaung Tim of I.B headed the Seniors with 75, and Fung Kwong-yap of II.A. the Juniors with 52

12. Drawing. Mr Dealy took a special class of about 50 boys, on two afternoons a week. The results in Freehand were excellent, but Geometrical Drawing chiefly owing to absence of Text-books, was poor.

Rwan Iu Ki of III. A distinguished himself with 118 out of 200 marks, the highest total. We hope next term to proceed to

Model Drawing. -years ago, Hon Mr J. H. Stewart Lockhart, when he distributed the prizes here, said that Queen's College ought to have a Gymnasium. In 1901 sffairs had reached so advanced a stage that a plan for the building had been made, but it was discovered that the Government could not; at present afford the expense, and it was proposed temporarily to utilise the base-ment of the college for gymnastics. At length votes were included in the 1905 Estimates, \$400 for gymnastic appliances and \$270 for an instructor. Through the kind services of the Military Authorities an excellent instructor has been provided in Sergeant D. Taylor, R.G.A., and 80 boys been under instruction since last April:,but

what are they among so many?

14.—Last February I submitted a scheme for forming a Collegiate class above and beyond the curriculum of Class I in Queen's College. No response worth mentioning has been made, indicative of desire on the part of the Chinese to avail themselves of the opportunity. It is now to be hoped that Evening Extension classes may most the want in this direction, that

ought not to be surely imaginary.

15.—Reviewing the immense number of papers, 7430, that have passed under my own personal inspection in the recent examination, I have arrived at the conclusion that we examiners are liable to overlook a certain element which produces most extraordinary errors, that might at superficial glance be attributed to gross ignorance or crass stupidity. It is not surprising that after laboriously think-ing and expressing himself in a foreign language during several hours of a protrac-ted examination the Chinese boy should find himself so weary, as not to have his mental faculties under complete control. It is to this brain-fag that we must assign the occurrence in otherwise highly commendate papers of such freaks as "serpon" for person: "gentleman" for Germany and perhaps the astonishing statement 256

COMPETITION

An amusing story is published in a eattle contemporary of the result of keen competition between two rival stores: "Workingmen's buckskin gloves, 10 cents per .pair." This announcement wa displayed in front of the Hennessy store shortly after 2 o'clock, when the streets Consignees of Cargo by her are hereby inwere crowded with shoppers. A memen later the rival merchant appounced; "One pair for 5 cents." Ten minutes later ten burly Connell salesmen carried five cases of gloves into the middle of the street between the two establishments and invited the spectators to help themselves, and a stampede followed. The police by vigorous work prevented serious injury to any of the participants. Several women, however, were trampled on, receiving alight hurts. It is estimated that this incident cost the merchants over \$1,300.

AN IRISH GHOST.

Wants to be Prayed For.

Certain statements by a priest regarding chostly appearances in the Monastery at Ardoyne, in Ireland, have caused quite a sensation throughout the Roman Catholic community in Belfast. It seems that a series of sermons on "The Souls Purgatory" has been delivered at the Passionists' Church at Ardyone, and these, on account of the nature of the subject, and more especially because of its remarkable treatment by the prescher, have stracted large attendances.

On one recent occasion the rector asserteh that he had seen in the monastery an apparition or ghost of a deceased Passion. is Father, who had formerly been a member of the community. One night, after he had retired to rest in the monastery, a knock came to the bedroom door. A similar knock was also heard by another Passionist Father, who occupied 113 an adjacent bedroom. Each open his door, and each saw the figure of a Passionist Father walking along the corridor, and finally melting into thin air. Similar knockings were repeated on other occasions, on one of which Father Hubert FROM GLASGOW AND LIVERPOOL.

Life Departments are free from liability in tried harder-and I believe him. -Ir was kept from bust. ness for 17 months again with rheumatism and kidney trouble. There were severe pains in my back and sides (especially the recognized left side); my appetite became poor, and didn't relish the food I was able to eat. There was a nasty taste in my mouth, no matter what I ate or drank, and I couldn't keep my food down. Even a pipe of tobacco seemed to go against me, and I became despondent and miserable, feeling

that life was not worth living. But there was worse to follow; not long after, I began to be troubled with the kidney secretions, the pain in passing being also a sediment from the urine. These distressing complaints kept getting worse and worse as months went by, until one day I couldn't pass the urino at all; I was in such a terrible condition at the time that It was then that I heard about Doan's 37, DES VŒUS ROAD CENTRAL. thought my race was nearly run.
